Snow Clearing Tips

The City of Platte City's top priority in a snowstorm is plowing snow routes, which may require several trips down the same route. Snow plowed from roads could end up blocking private driveways for some time. The City of Platte City recognizes the inconvenience this causes, but because of limited time and resources, plows can only clear private driveways at the request of local emergency officials.

To reduce the amount of snow that might block your driveway, shovel an open area along the shoulder at the entrance (see illustration below). Plow blades will then push snow into the area just before your driveway, leaving a much smaller amount in front of it.
